

FORCE MULTIPLIER.

Northrop's F-20 Tigershark is 1½ times as reliable as its closest competitor. It requires less support equipment and only half the main-

tenance personnel. Takes less time to repair, for quick turnaround.

F-20s also provide 1½ times as many sorties in the first, critical days of combat as a comparable force of current fighters.

And twice as many F-20s can be deployed with the same airlift support as its closest competitor.

F-20 Tigershark. For unsurpassed combat presence and force effectiveness.
